

Dear Federal Communications Commission:

I would like the NJ Do Not Call law to remain in effect. It is not too restrictive. Even though I appear on the list, I still get calls on weekends, after 9:00 PM and during the dinner hour.

Admittedly, there has been tremendous improvement. I do not want to go back to open ended calling by telephone solicitors. I can assure you that I have never purchased anything from a telephone solicitor and I prefer to make reasoned decisions about charitable contributions. Therefore, I don't want to be put on the spot and will not accept telephone solicitations for donations.
